To whom it may concern

I write to support the Manx Wildlife Trust commissioning an artist in residence to celebrate our UNESCO Biosphere Reserve. What a marvellous opportunity this would provide to connect different audiences in the Isle of Man to nature, the environment and our Biosphere through art.

Of course our Biosphere and our wildlife are indelibly interlinked and we have a wealth of nature to inspire artists of all ages. I am excited at the boundless possibilities for exploring and celebrating that through a dedicated artist in residence and I hope the proposal gets the green light.

Kind regards
